SPLASHING RADIANCE

Distributors for: Pearl Pigments | Fragrances | Flavours | Speciality Chemicals | Excipients & Colorants

SSV VERSACHEM

is one of the leading specialty raw materials and colorant distributors serving the needs of Colour Cosmetics, Personal care, Toiletries, Food and Pharmaceutical markets since 2005. Based in Mumbai we work with world renowned manufacturers which have a strong market position in the above mentioned industries and hence provides us and our customers a global access to the extensive range of specialities from these world class manufacturers. We are a confluence of creative minds and efficient hands who cherish integrity. We have the necessary confidence, calibre, capability and commitment to accept any challenge that would enable us to vindicate the trust of our customers. We have contacts and special arrangements for exclusive distribution both with the MNC's and domestic manufacturers for the supply of raw materials. Our office and warehouse are strategically located to ensure timely deliveries as well as better accessibility to our customers. This has helped us in servicing all our accounts very effectively, efficiently and innovatively with our vendor-aided-supply chain mechanism.

We take pride in the service we offer to customers. Technical back up and after sales service are two of our main strengths. We have a well equipped application laboratory enabling us to offer custom made formulatory assistance to our customers.

Customer support in terms of technical or formulation advice is available locally or from the overseas principals. We offer full support to our customers such as the facilitation of trial batch runs, technical training and information on the latest market trends, innovations, product developments and production techniques.

Our expertise in colour cosmetics and skin care products along with in-depth knowledge of multi functional specialty chemicals used in Personal Care, Pharma, Food & Household industries gives us an aptitude to try various new inputs for a given formulation either as a substitute or as a value addition providing essential inputs to our customers in developing outstanding products.

Mission

To provide the specialized & highest quality products and services to the makers of Colour Cosmetics, Personal Care, Toiletries & Household manufacturers while achieving results that protect and increase the value of our customers.

Values

We believe that trust, transparency and integrity are the most important characteristics and our code of conduct states our ethical beliefs, our commitment to our clients and environment for others to follow.

By serving these commitments, we will be able to satisfy the needs of our customers, suppliers, employees and the community where we operate.

Special Effect Pigments

Looking for effect pigments that do more than just colour? Our extensive portfolio is all you need, so we've created an overview of many options available. All of our pigment brands - Colorona, Ronastar, Timiron, Xirona, Ronaflux - are clearly linked to their effects. All of our pigments feel incredible on the skin and are easy to include in formulations. Interested in giving your products a fresh new look? Check out the main highlights of our broad pigment portfolio before and find the secret to your next market success.

Benefits

- Safe and stunning
- Largest portfolio of substrates and effects
- Best color & quality stability on the market
- Ultimate service package
- Reliable global supplier of innovative effects & technology

Functional Fillers

Looking for a lavish look? Go with our Ronaflair range of premium fillers. Our multifunctional fillers will give you matte or pearlescent, transparent or opaque look- whatever you are looking for. Depending upon the composition of each filler, it has properties to improve the overall texture of your skin, to provide modifying effect by absorbing excessive oil & sebum from your skin. Also, functional fillers with soft focus properties gives immediate anti-wrinkle effects and balance your skin colour.

Benefits

- Small-sized and multitalented ingredients
- Enhanced wear and feel properties
- Instant visual skin perfection
- Incredibly easy to use
- Perfect for outstanding formulations

Insect Repellent

Itchy insect bites are a nuisance, but heavy, tacky skin care products aren't much better as these kinds of products are likely to make you sweat, holding you back from enjoying outdoor activities. IR 3535 is the perfect product for lightweight formulations. Its pleasant smell makes it an attractive option when guarding against mosquitos, ticks, head-lice and flies.

Benefits

- Ideal for young and old generation
- Safe for people and pets
- Comfortable to wear
- Effective, long-lasting protection

Light Protection & Tanning Agents

People want to enjoy the sun without risk because sunlight makes us happier and more energetic. It even turbocharges our natural vitamin D production.

UV Filters

Our extensive range of organic and inorganic UV Filters gives you peace of mind and power of choice. Our portfolio also includes encapsulated UV Filters providing more options to formulate safe sun care products. We also offer high-tech active ingredients to protect against unwanted effects of sun damage like sun burns, premature skin aging, and potentially even skin cancer.

Tanning Agents

The greatest benefit of risk-free sun exposure is healthy tanning. Nothing rejuvenates an appearance like a natural glow. Our Eusolex, Oxynex and Ronacare lines deal with damage concerns allowing optimal tanning which can work wonders, for any even complexion or Ronacare Bronzyl actually supports the skin's own tanning process and stimulates the skin's natural protection system.

Benefits

- Prevent premature skin aging
- Control free-radical damage
- Stabilize light-sensitive cosmetics

Skin Perfection

Skin can be oily, dry, sensitive, strong, rough or elastic because of our genes. Even the natural aging process will be different for everyone. We have developed products that create the perfect look for any kind of skintone, skintype or age. Whether for skin, oral or hair care, the Ronacare portfolio is brimming with innovative products that can make formulations stand out with truly impressive product claims.

Benefits

- Incredibly pure and highly effective
- Supported by in-vivo and in-vitro studies
- Extensive documentary support
- Developed in line with regulatory affairs
- Worldwide formulation support

INORGANIC UV FILTERS		
Products	INCI Name	Characteristics
Eusolex T-2000	Titanium Dioxide, Alumina, Simethicone	UV-A/UV-B filter, amphiphilic use, high SPF efficient
Eusolex T-AQUA	Aqua, Titanium Dioxide, Alumina, Sodium metaphosphate, Preservatives	UV-A/UV-B filter, aqueous dispersion, easy-to-use
Eusolex T-AVO	UV-A/UV-B filter, aqueous dispersion, easy-to-use	UV-A/UV-B filter, nature identical, alumina free, SPF boost in synergy with Avobenzone
Eusolex T-PURE	Titanium Dioxide(in EU: nano), Alumina, Silica	UV-A Filter, Free of dimethicone, silicones and microplastics, improved handling as it's a low dust grade
Eusolex Z-BASE	Zinc Oxide (in EU: nano)	UV Filter that also fulfills the US pharmacopeia (USP) including OTC requirements, as well as ICHQ7 for good manufacturing practices (GMP) for APIs. Eusolex Z-BASE is approved and certified by COSMOS.
Eusolex Z-TEC	Zinc Oxide (in EU: nano)	UV-A/UV-B Filter, highly effective broad spectrum UV filter, enables all-mineral high SPF sunscreens with highest transparency on skin.
ORGANIC UV FILTERS		
Eusolex 232 USC	Phenylbenzimidazole Sulfonic Acid (Ensilizole)	UV-B filter
Eusolex 2292	Ethylhexyl Methoxycinnamate, BHT (Octinoxate)	UV-B filter
Eusolex 9020	Butyl Methoxydibenzoylmethane (Avobenzone)	UV-B filter
Eusolex HMS	Homosalate	UV-B filter
Eusolex OCR	Octocrylene	UV-B filter
Eusolex OS	Ethylhexyl Salicylate (Octisalate)	UV-B filter
Eusolex BEMT	Bis-Ethylhexyloxyphenol Methoxyphenyl Triazone	UV-A/UV-B Filter, Highly effect sunscreen with broad-spectrum absorption.
Eusolex EHT	Ethylhexyl Triazone	UV-B Filter with highly effective sunscreen with SPF booster, Excellent photostability for a long lasting protection.
Eusolex DHHB	Diethylamino Hydroxybenzoyl Hexyl Benzoate	UV-A Filter, known for its excellent photostability and ability to boost SPF when combined with other filters.
ACTIVES		
Ronacare AP	Bis-Ethylhexyl Hydroxydimethoxy Benzylmalonate	Anti-aging benefits, Premium antioxidant, Protects skin's own antioxidative defense system /skin lipids, UV protection to ensure sun protection, Photostabilizer of UV filters.
Ronacare Biotin Plus	Urea, Dicalcium Phosphate, Biotin, Citric Acid	Vitamin H with greater solubility, anti-aging ingredient to support natural skin barrier function, improves quality of hair, acts against brittle nails
Ronacare Cyclopeptide-5	Aqua, Alcohol, Lecithin, Ectoin, Cyclotetrapeptide- 24 Aminocyclohexane Carboxylate	Anti-aging & anti-wrinkle, increases skin elasticity, first homodetic cyclic biomimetic peptide for cosmetic application
Ronacare Ectoin	Ectoin	Natural cell protector and anti-aging ingredient, protects against external skin stress and UV induced damage, forms moisture reservoir and enables long term hydration of skin
Ronacare Poppy SE	Caprylic/Capric Triglyceride, Papaver Rhoceas Extract, Tocopherol	Natural skin firming agent, active against dark under eye circles, improves radiance and microcirculation

ACTIVES		
Products	INCI Name	Characteristics
Ronacare Epintegrity	Serine, Calcium Lactate, PCA, Arginine, Histidine	It acts like an assistant to the skin by supporting its naturally occurring moisturizing factor and providing essential "skin food".
Ronacare MAP	Magnesium Ascorbyl Phosphate	Stabilized vitamin C, skin lightener
Ronacare Balmance	Maltodextrin, Centaurea Cyanus Flower Extract	A natural soothing ingredient to quickly restore harmony to sensitive and stressed skin. Reduce itching sensation and rough feel in sensitive skin.
Ronacare Bisabolol nat.	Bisabolol	Natural, sustainable soothing/anti-inflammatory agent for sensitive skin.
Ronacare Caffeine	Caffeine	Hyperaemic agent (stimulates blood circulation) antioxidant.
Oxynex ST Liquid	Diethylhexyl Syringylidene Malonate, Caprylic/ Capric Triglyceride	Photostabilizer for light sensitive cosmetic ingredients.
INSECT REPELLENT		
IR3535	Ethyl Butylacetylaminopropionate	Insect repellent
ANTI AGING		
Emblica	Phyllanthus Emblica Fruit Extract (for EU: Phyllanthus Emblica Extract)	Fully natural skin lightener, effective against age spots and freckles, cascade-based antioxidant providing long-term efficacy and supporting anti - aging aspects
RonaCare Luremin	Sorbitol, Dihydroxy Methylchromone	Anti-aging ingredient with excellent stability, retinol-like activity with improved stability and less irritation; from natural source and nature-identical sustainable production
SILVERWHITE COSMETIC PIGMENTS		
Products	Composition	Characteristics
Timiron Halo White	Syn. Mica, TiO ₂ , SnO ₂	Silvery bluish – white satiny powder
Timiron Super Sheen MP-1001	Mica, TiO ₂	Silvery – white powder
Timiron Star Luster MP-115	Mica, TiO ₂	Silvery – white lustrous powder
Timiron Snowflake MP-99	Mica, TiO ₂	white lustrous powder
Tirmiron Ice Crystal	Syn. Mica, TiO ₂ , SnO ₂	silvery –white sparking powder
Ronastar Noble Sparks	TiO ₂ , Ca- Al Borosilicate, SiO ₂ , SnO ₂	white powder with silver multicolor sparkle effect
Ronastar Frozen Jewel	TiO ₂ , Ca- Al Borosilicate, SiO ₂ , SnO ₂	Silvery –white mass tone powder with silver sparkle effect
Ronaflux Specular Silver	Mica, Titanium Dioxide, Carbon	Brilliant silver powder
INTERFERENCE COSMETIC PIGMENTS		
Products	Composition	Characteristics
Timiron SynBeam Gold	Syn. Mica, TiO ₂ , SnO ₂	White powder with golden interference effect
Ronastar Golden Sparks	TiO ₂ , Ca- Al Borosilicate, SiO ₂ , SnO ₂	White powder with golden multicolor sparkle effect
Timiron SynBeam Copper	Syn. Mica, TiO ₂ , SnO ₂	White powder with copper interference effect
Ronastar Copper Sparks	TiO ₂ , SiO ₂ , SnO ₂	White powder with copper multicolor sparkle effect
Ronastar Red Sparks	TiO ₂ , Ca- Al Borosilicate, SiO ₂ , SnO ₂	White powder with red to copper multicolor sparkle effect
Timiron SynBeam Violet	Syn. Mica, TiO ₂ , SnO ₂	White powder with violet interference effect
Ronastar Purple Sparks	TiO ₂ , Ca- Al Borosilicate, SiO ₂ , SnO ₂	White powder with purple multicolor sparkle effect
Timiron SynBeam Blue	Syn. Mica, TiO ₂ , SnO ₂	White powder with bluish interference effect

INTERFERENCE COSMETIC PIGMENTS		
Products	Composition	Characteristics
Ronastar Blue Sparks	TiO ₂ , Ca- Al Borosilicate, SiO ₂ , SnO ₂	White powder with blue to lilac multicolor sparkle effect
Ronastar Aqua Sparks	TiO ₂ , Ca- Al Borosilicate, SiO ₂ , SnO ₂	white powder with turauoise multicolor sparkle effect
Ronastar Green Sparks	TiO ₂ , Ca- Al Borosilicate, SiO ₂ , SnO ₂	White powder with red to yellow – green multicolor sparkle effect
GOLD COSMETIC PIGMENTS		
Colorona Fine Gold MP – 20	Mica, TiO ₂ , Fe ₂ O ₃	Red-golden lustrous powder
Colorona SynRussian Gold	Syn, Mica, TiO ₂ , Fe ₂ O ₃ , SnO ₂	Golden lustrous powder
Colorona treasure Gold	Mica, TiO ₂ , Fe ₂ O ₃ , SiO ₂ , SnO ₂	Golden lustrous powder
Colorona Karat Gold MP – 24	Mica, TiO ₂ , Fe ₂ O ₃	Bright golden sparkling powder
COLOR LUSTER COSMETIC PIGMENTS		
Colorona SynBerry Pink	Syn. Mica, TiO ₂ , SnO ₂ , Carmine	Fuchsia- red Powder
Colorona Carmine Red	Mica, TiO ₂ , Carmine	Red lustrous powder
Colorona Magenta	Mica, TiO ₂ , Carmine	Pink violet lustrous powder
Colorona Purple	Mico, TiO ₂ , Fe ₂ O ₃ , Ferric Ferrocyanide	Purple lustrous powder
Colorona Dark Blue	Mica, TiO ₂ , Ferric Ferrocyanide	Dark blue lustrous powder
Ronaflux Specular Blue	TiO ₂ , Mica, SiO ₂ , Carbon	Brilliant blue powder
Ronaflux Specular Green	TiO ₂ , Mica, SiO ₂ , Carbon	Brilliant green powder
METALLIC LUSTER COSMETIC PIGMENTS		
Colorona Beige	Mica, Fe ₂ O ₃ , TiO ₂	Beige Colored lustrous powder
Colorona Bronze	Mica, Fe ₂ O ₃	Golden –brown lustrous powder
Colorona Copper	Mica, Fe ₂ O ₃	Copper red lustrous powder
Ronastar Copper Jewel	Fe ₂ O ₃ , TiO ₂ , Ca – Al Borosilicate, SiO ₂ , SnO ₂	Copper sparkling powder
Colorona Sienna	Mica, Fe ₂ O ₃	Red lustrous powder
Colorona SynCranberry	Syn. Mica, Fe ₂ O ₃	Red lustrous powder
RONAFLUX COSMETICS PIGMENTS		
Ronaflux Specular Green	TiO ₂ , Mica, Silica, Carbon	Metallic Green
Ronaflux Specular Blue	TiO ₂ , Mica, Silica, Carbon	Metallic Blue
Ronaflux Peacock	TiO ₂ , Mica, Silica, Carbon, SnO ₂	Holographic Green /Blue
Ronaflux Foxy Red	Silica, Fe ₃ O ₄ , Fe ₂ O ₃ , Carbon	Metallic Red
COLOR TRAVEL COSMETIC PIGMENTS		
Xirona Caribbean Blue	Mica, TiO ₂ , SiO ₂ , SnO ₂	White Powder with color travel (turquoise/blue/violet)
Xirona Golden Sky	TiO ₂ , SiO ₂ , SnO ₂	White Powder with color travel (gold/silver – green/blue)
Xirona Kiwi Rose	TiO ₂ , SiO ₂ , SnO ₂	White Powder with color travel (green/silver/peach)
Xirona Nordic Sunset	TiO ₂ , SiO ₂ , SnO ₂	White Powder with color travel (silver – green / silver-red / green-gold)
Xirona Magic Mauve	TiO ₂ , SiO ₂ , SnO ₂	White Powder with color travel (lilac red/silver/green blue)
Xirona Volcanic Fire	Mica, TiO ₂ , SiO ₂ , SnO ₂	White Powder with color travel (red/copper/gold)
Xirona Vocanic sparks	TiO ₂ , SiO ₂ , Ca-Al Borosilicate, SnO ₂	White Powder with color travel (red/copper/gold) sparkle effect
Xirona Moonlight Sparks	TiO ₂ , SiO ₂ , Ca-Al Borosilicate, SnO ₂	Silver-white powder with golden sparkle effect
Xirona Le Cour	Fe ₂ O ₃ , SiO ₂	Red powder with a bluish touch
Xirona Le Rouge	SiO ₂ , Fe ₂ O ₃	Red powder with slightly color travel (red/Orange-red)

Solubilizers

The one and only: Solublisant LRI. Unmatched solubilizing performances and cleansing properties. Now available in natural version: Natpure Sol.

Color Protection Additives

As a premium dye and pigment manufacturer, we have developed the perfect color and fragrance protecting agent, Covasorb (patented technology). For all your perfumes, personal and skin care applications.

Mineral UV Filters

Our complete range of advanced mineral UV Filters can answer to all your sunscreen formulation challenges keeping transparency upon application with no compromise on SPF efficiency. Based on innovative technologies they are available either in powder form with or without surface treatment and in dispersion. (broad spectrum, safe, globally approved and Ecocert version available)

Film Formers

Water-resistant, flexible, elastic, transparent, shiny, silicone- like.... Our highly designed range of film formers allows you to achieve unique properties in formulations.

Rheology Modifiers

Specialist in unique and revolutionary textures in cosmetic formulation, we offer a full range of versatile rheology modifiers answering key needs (transparency suspending property...) For water or oil system, synthetic or natural, from fluid to mousse or melting 'texture', let your creativity in any kind of cosmetic applications.

Binders/Texturing Agents

Looking to improve the feel, the pay off, the spreadability of your pressed powders while maintaining excellent droptest results? Let us offer you our different generation of binders and texturing agents to satisfy all innovative developments.

Optical Modifiers

Master the light. Thanks to our range of optical modifiers to achieve an optimum result on the skin, hiding all imperfections and wrinkles with Soft Focus, HD or 3D effects.

Bases And Additives

Our easy to use, ready-made bases will allow you to formulate quickly stable cosmetic products such as mascara, lipstick and gloss or W/O, O/W, W/Si emulsions..... Even high complexity formula become simple and sure with our optimized blends.

Actives

Our targeted active ingredients range focusses on key market needs as anti-aging, moisturizing, whitening...for versatile cosmetic formulations from different origins and with proven efficacy.

Makeup Ingredients

Sient offers a wide range of cosmetic ingredients and colors to stimulate the four senses. Discover our solution for each make up application that will bring out your hidden senses.

We are specialized in intermediates for the colour cosmetic industry. Our products and services are fine tuned to meet the exact requirements of our customers. We Offer customized products /solutions that aids us to produce our products as per the specifications of our clients.

We Manufacture the following products for Domestic and Overseas markets:

- Thixotropic Gel (Bentone Gel) for Nail lacquers
- Thixotropic Base (Regular/Velvette Matte / Glitter)
- Isododecane based thixotropic Gel for Liquid Lip colour
- CCTG based thixotropic Gel for Liquid Lip colour / Foundation
- Laencogloss SMTR (Resin For Non - Transfer Lip Colour & Foundation)
- Ready Bases for Primer, Hair Serum, Lipstick etc.

We believe that quality has no limits.

We take utmost care to keep all technical parameters at an optimum level ensuring high performance of the products that we provide.

We have a well-equipped quality control laboratory to assure stringent quality check.

In a pursuit to win loyalty and trust of large number of customers, we are experimenting with all probable opportunities that leads us to maximum customer satisfaction.

At Hexawel, we focus on understanding our customer's needs for fortification of formulations with stabilized forms of vitamins, minerals & other ingredients. The challenge of providing unparalleled solutions to our customers using the finest quality of raw materials drives our R&D objectives.

About Gattefosse group

Gattefosse develops, manufactures and sells specialty ingredients for the personal care and pharmaceutical industries and offers a strong expertise in formulation for both of these activities. Gattefosse markets its products in more than 60 countries through 13 affiliated companies and a network of agents and distributors which operate technical and marketing support: 75% of the sales are achieved on the export markets. Innovation, ethics, quality and stability are the company key-drivers since the beginning. Gattefosse was founded in Lyon, France in 1880 by Mr Louis Gattefosse to whom building strong relationship with customers was a priority. The company still is a family-run and independent business, and now employs 280 people worldwide.

About Gattefosse India:

Gattefosse India is a decade run strategic supplier for cosmetics and pharmaceuticals companies in India. This Gattefosse affiliate is responsible for sales, marketing and technical service support throughout the Indian subcontinent. It sustains a profitable operation, supported by a professional team of business development, technical and customer service as well as administration managers. Gattefosse India extends extensive regulatory; toxicological support, technical and application guidance to the pharmaceutical and personal care customers. Various workshops, texture showcase and seminars are organised by experts for detailing benefits of Gattefosse products.

Actives

At Gattefosse, we strongly believe in the potential of nature. All our actives come from natural plant resources that are selected according to exhaustive research on their composition. Our actives concentrate the best of nature and deliver their full potential to high efficacy formulations;

Our portfolio includes products for:

- Acne & sebum control
- Anti-wrinkles
- Complexion
- Energizing
- Eye bags & dark circles
- Protection
- Moisturising & repairing
- Soothing

Extracts

Innovative and excellent methods of plant extraction that allows extraction and stabilization of active molecules. The discovery of inventive extraction processes using "green" solvents are an important part of innovative research program. These natural extracts deliver the perfect activity to boost your formulations.

Fruit Extracts:/Fresh Cell

These are cellular suspensions of whole, fresh fruit cells, obtained by a specific enzymatic process. When they come in contact with the skin, they degrade due to enzymes in the epidermis, releasing their precious content into the skin.

Carrot Kiwi, Mango, Pumpkin & Strawberry

Original Extracts:

Original extracts are living waters truly designed for cosmetic formulations. Directly obtained from fruits or plants, they contain a well-balanced content of trace elements, mineral salts and essential oils.

Apple, Grape Bio, Orange, Lemon Bio, Grapefruit, Kiwi & Cranberry Bio.

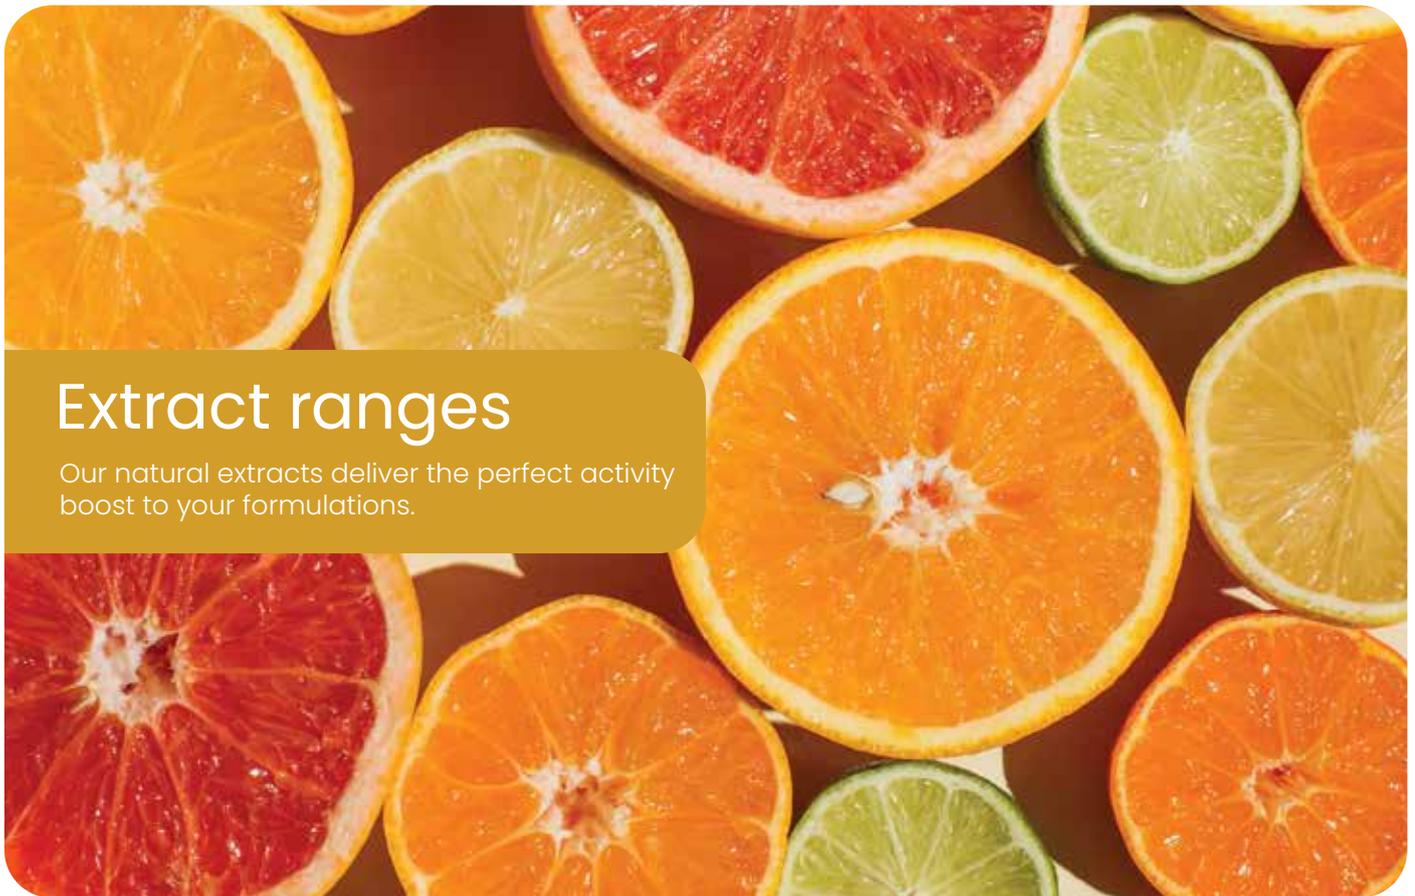

Sensorial Emulsifiers

Sensorial emulsifiers and texturizing agents allow the creation of innovative textures and varied formulations. The texture is at the heart of a cosmetic product and is responsible for creation of different sensations and reactions. The majority of products are of 100% plant origin.

Dispersants & Emollients

Proven efficacy is essential, the performance of active ingredients is fully demonstrated and substantiated. Range of sensorial emollients are dedicated to all fields of application. They contribute to the formation of a protective film and maintain the barrier function of the skin.

ACTIVES		
Products	INCI Name	Characteristics
Gatuline Link n Lift	Fructose (and) Glycerin (and) Water (and) Aesculus Hippocastanum (Horse Chestnut) Extract	Reduces eye contour wrinkles: Crow's feet, tear trough & under-eye wrinkles, improves overall skin quality and comfort, rapid efficacy
Gatuline Expression AF	Propanediol (and) Water (and) Acmella Oleracea Extract	Myorelaxant effect, instant visible results, natural alternative to injections, reduces expression lines, wrinkles and folds, smoothes and redesigns the lip contour
Gatuline Renew	Butylene glycol (and) Water (and) Cryptomeria Japonica Bud Extract	Restructures and smoothes the skin texture, improves overall skin quality, the skin is softer, more supple and comfortable, adapted to sensitive skins
Gatuline Radiance	Propanediol (and) Evodia Rutaecarpa Fruit Extract	Boosts skin micro circulation, fights dullness, enhances skin radiance and luminosity, improves fineness of skin texture
Cytobiol Lumin-Eye	Butylene Glycol (and) Water (and) Niacinamide (and) Fraxinus Excelsior Extract	Stimulates skin microcirculation and strengthens capillaries, limits premature aging of the eye contour, visually hides symptoms of fatigue, reduces under eye bags and dark shadows
Cytobiol™ Iris A ²	Propanediol (and) Water (and) Alcohol (and) Iris Florentina Root Extract (and) Zinc Sulfate (and) Retinyl Palmitate	Targets imperfections, Purifies, Fights existing blemishes
EleVastin™	Betaine (and) Water (and) Propanediol (and) Murraya Koenigii stem extracts	Promotes and protects skin elasticity, Reduces the impact of gravity, limits skin sagging
EnergiNius®	Fructose (and) Glycerin (and) Water (and) Withania Somnifera Root Extract	Boosts cellular energy, Protects from screen-emitted light and flights digital pollution, Improves skin firmness and tonicity
Eyeglorius™	Octyldodecanol Myristate (and) Hippophae Rhamnoides Extract	Secures microcirculation, Regulates hyperpigmentation / dark circles on the under-eye area, Reduces eye bags
SENSORIAL EMULSIFIERS		
Apifil CG	PEG-8-Beeswax	Wide array of viscosities, naturally moisturizing, increases emulsion viscosity and improves spreadability, white and bright emulsions with extremely light after feeling.
Emulium 22 MB	Tribehenin PEG-20 Esters	High stability, high compatibility with sunscreens and pigments, excellent pick-up with easy spreading and rapid absorbency, non-greasy, non-tacky feel afterfeel with very light film residue.
Emulium Delta MB	Cetyl Alcohol (and) Glyceryl Stearate (and) PEG-75-Stearate (and) Ceteth-20 (and) Steareth-20	Creamy emulsions with strong emulsifying & stabilizing properties, soft, velvety, non-tacky feel
Emulium Mellifera MB	Polyglyceryl-6-Distearate (and) Jojoba Esters (and) Polyglyceryl-3-Beeswax (and) Cetyl Alcohol	PEG-free emulsifier, moisturizing and anti-pollution effect, adapted to sensitive and hyper reactive skin (clinically tested), very low residual feel
Emulium® Dermolea MB	Polyglyceryl-6-Distearate (and) Candelilla / Jojoba / Rice bran Polyglyceryl-3-Esters	Moisturizing and anti-pollution benefits, Adapted to sensitive skin with long-term soothing effect, Light residual film
Emulium® Dolcea MB	Cetearyl Alcohol (and) Glyceryl Stearate (and) Jojoba Esters (and) Helianthus Annuus (Sunflower) Seed Wax (and) Sodium Stearoyl Glutamate (and) Water (and) Polyglycerin-3	The most robust of Gattefosse's natural emulsifiers, Immediate and Long-term moisturization, Extreme softness
Emulium® Illustro	Polyglyceryl-6-Polyhydroxystearate (and) Polyglyceryl-6-Polyricinoleate (and) Polyglycerin-6	Ideal for color cosmetics and suncare emulsifiers, Ultra-fluid to thick textures, Combines performance and flexibility

Extract ranges

Our natural extracts deliver the perfect activity boost to your formulations.

Living waters truly designed for cosmetic formulations and directly obtained from fruits, they contain a well-balanced content of trace elements, mineral salts and essential oils.

ROBERTET

INDIA

FRAGRANCE CREATION FROM THE SOURCE

An International Spirit to a local Soul

- Robertet a creative & Innovative Company in Europe & USA
- A pioneer of natural molecules and leader in organic essential oils holding 25% of the market,
- Perfumery team in India has vast levels of experience
- Access to a large existing library available in France
- Innovative french R&D team to support the joint venture
- French marketing team will produce new concepts for "customised" personation from Indian Marketing Team's knowledge of customers & their preference
- Unique access to natural products of Robertet
- Use of captives & natural extracts in our fragrances

Supplier of Naturals to the largest brands & Fragrance companies

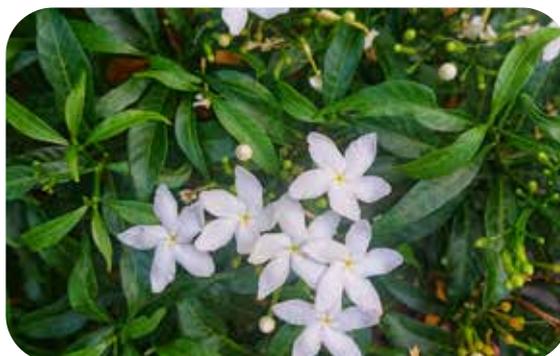

Robertet Groupe is the leader in Natural Raw Materials, expert in Essential Oils production, extraction and blending.

Our presence at origin, working directly with producers, our technological expertise, our engagement in

social responsibility, establishes Robertet as the leading player in the naturals market.

Each Essential Oil used comes from a fully traceable process and received

High quality control, both on their components and their olfactive profile. Supplier of Natural Extracts & Oils to all major Companies.

Non-ionic Surfactants

Sorbitan Esters		
Products Name	Physical Form	Properties
Sorbitan Laurate	Pale yellow liquid	Acts as a co-emulsifier in O/W emulsions.
Sorbitan Stearate	Off-white solid	Produces stable O/W emulsions with good aesthetic. Suitable for use in skin creams and lotions.
Sorbitan Tristearate	Off-white solid	W/O emulsifiers. Dispersing agents for insoluble liquid in other lipophilic liquids, Span 65 and 80 are used as wetting agents and dispersants for pigments colour cosmetics and for zinc oxide/ titanium dioxide in sun care products.
Sorbitan Oleate	Amber liquid	
Sorbitan Sesquioleate	Amber liquid	
Sorbitan Trioleate	Amber liquid	
Ethoxylated Sorbitan Esters		
Polysorbate 20	Clear yellow liquid	Emulsifier for O/W systems and effective solubiliser for essential oils and perfumes.
Polysorbate 21	Yellow liquid	Suitable for use in baby shampoos and as a cleansing agent in wet wipes.
Polysorbate 60	Yellow paste	Produces stable O/W emulsions.
Polysorbate 61	Amber paste	Co-emulsifiers. Suitable for use in skin care, sun care, hair care,
Polysorbate 65	Yellow paste	colour cosmetics and baby care.
Polysorbate 80	Clear yellow liquid	O/W emulsifiers and dispersants often used in conjunction with the appropriate Span. Possess good solubilising properties.
Polysorbate 81	Clear amber liquid	
Polysorbate 85	Clear amber liquid	Excellent dispersing agent for vegetable oils. Suitable for use in bath and massage oils.
PEG-80 Sorbitan Laurate	Clear yellow liquid	Used in baby shampoos as a solubiliser and cleansing agent. Also provides thickening properties in detergent systems
Ethoxylated Triglycerides		
PEG-25 Hydrogenated Castor Oil	Clear yellow liquid	Co-solubiliser. Helps to control the consistency of gels.
PEG-40 Hydrogenated Castor Oil	Off-white paste	Effective solubilisers of perfumes, essential oils and lipophilic actives for use in microemulsions. Impart Superfating benefits in detergent systems. Used as wetting agents in styling waxes. Suitable for use in skin creams and lotions, sun care, hair care, bath and shower products and wipes.
PEG-60 Hydrogenated Castor Oil		
PEG-5 Castor Oil	Clear pale yellow liquid	W/O emulsifier
PEG-15 Castor Oil	Clear/hazy yellow liquid	O/W emulsifiers. Dispersing and solubilising agents. Used in skin care and bath & shower products.
PEG-40 Castor Oil	Clear pale yellow liquid	

Ethoxylated Fatty Alcohols

Products Name	Physical Form	Properties
Ceteareth-6	White solid	O/W emulsifiers and co-emulsifiers. Bodying agents for creams and lotions. Suitable for use in skin care, hair styling and colour cosmetics.
Ceteareth-12		
Ceteareth-20		
Ceteareth-25		
Laureth-4	Clear/hazy yellow liquid	Solubiliser and dispersant. Suitable for use in bath and shower products, hair care and Styling.
Laureth-9	Clear yellow paste	Skin soothing agent. Suitable for use in skin care, sun care and bath & shower products.
C12-13 Pareth-3 / C12-13 Pareth-4	Clear colourless liquid	Excellent dispersing agents, particularly for Bath oils. Solubilisers, wetting agents
C12-13 Pareth-12	Clear colourless liquid	and spreading agents.
C12-13 Pareth-23	White solid	Viscosity modifiers in detergent systems
Oleth-2	Pale yellow liquid	Used in microemulsions as primary emulsifier or co-emulsifier in combination with phosphate esters. Solubilisers, Dispersing, spreading and wetting agents. Effective gelling agents.
Oleth-3	Clear pale yellow liquid	
Oleth-5	Clear/hazy off-white liquid	
Oleth-10	White paste	
Oleth-20	White solid	
Steareth-10	White solid	
Steareth-20	White solid	O/W emulsifier and co-emulsifier. Bodying agent for creams and lotions.
Steareth-21	White solid	Designed to emulsify and produce stable dispersions of cosmetics materials. Particularly recommended for high electrolyte and pH tolerance in applications such as antiperspirants
PEG-8 Stearate	Off-white solid	O/W emulsifiers, solubilisers, wetting agents and dispersants. Suitable for use in skin care, hair styling, sun care and colour cosmetics.
PEG-20 Stearate		
PEG-40 Stearate		
PEG-50 Stearate	Off-white solid	Co-emulsifier for W/O and O/W emulsions modifies viscosity and improves stability of emulsions.
Glyceryl Stearate		
EMULSIFIER WAXES		
Glyceryl Stearate (and) PEG-100	Off-white solid	Versatile O/W emulsifiers, mainly for non-polar oil phases.
Glyceryl Stearate (and) PEG-100	White solid	Can be the sole emulsifier for mildly acidic O/W creams and lotions and other O/W electrolyte products.
Sorbitan Oleate (and) Hydrogenated Castor Oil (and) Beeswax (and) Stearic Acid	Amber solid	Waxy W/O emulsifier preparations for high viscosity creams such as baby creams with zinc oxide. Suitable for use in baby care, facial care and sun care.
Glyceryl Stearate (and) PEG-30 Stearate	Off-white powder	Standard multipurpose O/W emulsifiers for non-polar oils. Suitable for use in baby care, hair care, skin care, colour cosmetics and antiperspirants and deodorants.

EMULSIFIER WAXES

Products Name	Physical Form	Properties
Steareth-2 (and) PEG-8 Distearate	Off-white solid	Co-emulsifier for O/W emulsions. Suitable for use in baby care, hair care, skin care, colour cosmetics and antiperspirants and deodorant.
Sorbitan Stearate (and) Sorbityl Laurate	Off-white powder	Approved natural by Ecocert. O/W emulsifier that offers hydrosomes to the emulsion. Can be used to control viscosity. Improves water resistance of formulations and is compatible with organic and inorganic sun filters. Suitable for use in skin care, sun care and colour cosmetics
Cetearyl Alcohol (and) Ceteareth-20	White solid	A self body non-ionic emulsifying wax.
Ceteth-5	White solid	Forms stable emulsions in the presence of hydrogen peroxide and ammonium thioglycolate.
Steareth-21	White solid	O/W emulsifier. Useful in aqueous alcoholic systems and systems with high levels of electrolytes.
Glyceryl Stearate (and) Ceteareth-20 (and) Ceteareth-12 (and) Cetearyl Alcohol (and) Cetyl Palmitate	White solid	O/W emulsifier, producing lotions and milks. Suitable for use in organic sunscreen formulations.

SPECIALITIES

Polysorbate 20 (and) PEG-25 Hydrogenated Castor Oil (and) Propylene Glycol	Yellow liquid	Solubilisers. Suitable for use in personal cleansing products.
PEG-15 Hydroxystearate (and) PEG-54 Hydrogenated Castor Oil & Aqua	Yellow liquid	
Aqua (and) Cocamidopropylamine Oxide	Clear pale yellow liquid	Produces voluminous lacy foam. Good thickener for alkyl sulphate systems.
Poloxamer 338 / 407 Poloxamer 188 (and) BHT / 237	White solid	Mild detergents and water gelling agents, O/W emulsion stabilisers and solubilisers. They can be used to produce W/O/W multiple emulsions. Suitable for use in skin care and hair care
Poloxamer 101	Clear colourless liquid	An emollient that can also be used as a lubricant and as a coupling agent in oil based formulations. Suitable for use in skin cleansing bath and shower products.
Poloxamer 182	Clear colourless liquid	Wetting agent and mild detergent. Suitable for use in hair care, sun care, antiperspirants and deodorants, bath and shower products.

We are a specialty ingredient manufacturer focusing on the Personal Care industry. Our core business principle is to work closely with our customers to meet evolving consumer needs, while maintaining our commitment to sustainability through initiatives that include the use of certified sustainable palm oil and other renewable raw materials. We have several cosmetic ingredients that provides added value solutions for current and future cosmetic trends, all supported by extensive research. A combination of market intelligence, good raw material sourcing and creative chemistry empower us to offer notable solutions to the challenges faced by our customers

REFLEZ SERIES

- Functional Ingredients
- Anti-Microbial
- Solubilizer
- Silicone Alternative
- Dispersant
- Surfactants

NATURAZ SERIES

- Natural Esters
- Silicone Free

- Paraben Free

FEELZ SERIES

- Standard Esters
- Good quality
- Competitive
- Supply continuity

CERTIFICATIONS

Emollients

Meaning soother or softener, an emollient softens dry, rough, flaky skin, making it look and feel better. A good emollients make your promotion standout among your competition! Consumer value it because of the skin feel and performance. Choosing a right emollient is crucial for the different geographical weather needs

INCI	FUNCTION	VEG. ORIGIN
Phytosteryl Isostearate	Acts as an emollient and emulsion stabilizer	YES
Triisostearin	A low spreading emollient. Suitable for skin care products and decorative cosmetics	YES
Neopentyl glycol diisostearate	A medium viscosity emollient with good spreading properties. Suitable for skincare products and decorative cosmetics.	NO
Triisononanoin	A high polar light ester with good skin spreading properties. It is a good solvent for pigments.	NO
Triethylhexanoin	A medium spreading emollient with good oxidation and hydrolytic stability. It also has a low cloud point.	NO
Propylene Glycol Dicaprylate / Dicaprate	A naturally derived molecule. Gives a pleasant skin feel and it is stable to oxidation.	YES
Isopropyl isostearate	It has the lowest viscosity among the isostearate esters.	NO
Isoamyl laurate	It is a polar oil with slight natural odor. It gives a light feeling to the skin and have good pigment wetting ability and UV filter solubility. It is also a suitable alternative to D5 silicone.	YES
Isononyl isononanoate	A branched-chain, high spreading emollient.	NO
Propylheptyl Caprylate	A fast spreading emollient with excellent softness sensation.	NO
Triheptanoin	A triglyceride oil which gives a non greasy, velvety sensation.it is palm free and 100% naturally derived. Its sensory properties and lightweight emollient feel make it a good stand-in for siloxane-type silicones such as cyclopentasiloxane.	YES
Dibutyl Adipate	It is a fast spreading emollient that exhibit excellent solubilizing properties for organic UV filters.	NO
Butylene Glycol Dicaprylate /Dicaprate	An emollient with high dispersant properties, nice skin feel and spreadability.	NO
Diisostearyl Malate	It is a highly branched emollient that exhibit gloss and lubricity with minimum oiliness. It is a good binder for pigmented products	YES
Coco-Caprylate/ Caprate	A medium polar oil with slightly fatty odor. It's a fast-spreading emollient that leaves a light feel with good pigment wetting ability	YES
Neopentyl Glycol Diheptanoate	A non-greasy and fast spreading emollient. It leaves a dry and velvety after feel. Often advertised as volatile silicone alternative	NO
Pentaerythritol Tetraisostearate	A low spreading emollient. It leaves a nice gloss to the skin. Suitable for decorative cosmetics such as lip stick, lipgloss and eye shadow.	NO

Additives

INCI	FUNCTION	VEG. ORIGIN
PCA Glyceryl Oleate	Acts as a conditioning agent for skin and hair	Yes

Emulsifiers

Emulsifiers are widely used throughout the cosmetics industry and are the unsung heroes of many cosmetics formulas that blend and help to keep unlike ingredients together. Organic and natural emulsifiers are some of the trickiest ingredients to work with when you're making clean, green and organic skincare or haircare formulations. However, we have a wide range of products to take care of your needs to create a good emulsion. Even good emulsifier to cold processing and as well as multiple phase-changing emulsifier system. Please discover what is new and can be for your new formulation

INCI	FUNCTION	VEG. ORIGIN
Sorbitan isostearate	A nonionic W/O emulsifier. It is suitable for cold process manufacturing procedure	Yes
Polyglycerol-3 diisostearate	A W/O emulsifier for cosmetic emulsions, sticks and ointments. It is suitable for cold process.	Yes
PEG-30-Dipolyhydroxystearate	A W/O emulsifier that can be use to make fluid emulsions and medium viscosity creams	NO
Sodium stearyl lactylate	A natural based anionic co-emulsifier that improves the electrolyte tolerance of non-ionic emulsifier.	Yes
Polyglyceryl-3 stearate	A nonionic O/W emulsifier for creams and lotion. Creates stable emulsion over a wide pH.	Yes
Polyglyceryl-3 Polyricinoleate	A non ionic W/O emulsifiers for creams an lotions. It gives a shining appearance and compatible with all kinds of cosmetics oils.	YES
Glyceryl stearate citrate SE	It is a PEG free anionic O/W emulsifier suitable for creams and lotions. It leaves a light and soft skin feel. Excellent stability and good electrolyte tolerance.	Yes
PEG-20 Glyceryl Triisostearate	A non-ionic surfactant that provides excellent makeup removing effect and function as self-emulsifier to form soap when water is presence.	NO
Polyglyceryl-10 Oleate	A non-ionic hydrophilic emulsifier which exhibit self emulsifying ability when combined with Polyglyceryl-2 Oleate.	Yes
Polyglyceryl-3 polyricinoleate (and) sorbitan isostearate	It is a W/O emulsifier for cosmetic emulsions, lipophilic sticks and ointments. It is suitable for cold manufacturing process. HLB-3.	Yes
Sorbitan olivate, ceterayl glucoside ceterayl alcohol	It acts as a self-emulsifying O/W emulsifier. It provides smooth and light feel with excellent spreadability.	Yes
Sorbitan Olivatate	A PEG free W/O emulsifier. It can form a bright, creamy and easily absorbed cream.	Yes
Polyglyceryl-3 stearate (and) Polyglyceryl-4 behenate	Polymeric emulsifier. It can form sprayable to thick creams. Compatible with various oils.	Yes

Functional Ingredient

Market trends are towards using natural or green ingredient but performance must be on par or better than existing mineral or synthetic ingredients. We have several cosmetic ingredients that provides added value solutions for current and future cosmetic trends, all supported by extensive research.

Example:

- Natural solubilizer
- Mild surfactant from natural oil derivatives
- Natural anti-microbial esters
- Green silicone alternative esters

INCI	FUNCTION	VEG. ORIGIN
Dimer dilinoeoyl dimer dilinoleate (DD20)	A low spreading emollient. Suitable replacement for polyisobutene. A good film former	Yes
Dimer dilinoeoyl dimer dilinoleate (DD70)	A low spreading emollient. Suitable replacement for polyisobutene. A good film former	Yes
Polyglycerol-4 caprate	It works as a solubilizer and a co emulsifier for o/w emulsion	Yes
Polyglycerol-3 caprate/ caprylate succinate (and) propylene glycol	A natural solubilizer for essential oils and fragrances	Yes
Polyglycerol-6 caprylate (and) Polyglycerol-4 caprate	A natural solubilizer for essential oils, fragrances and polar emollients	Yes
Glyceryl mono caprate	An antimicrobial booster which also acts as a co-emulsifier. It work against gram positive, gram negative, yeast and mould	Yes
Olive Oil PEG-7 Ester	It acts as a secondary surfactant and emulsifier or co-emulsifier for O/W system	No
Sodium Olive Oil PEG-7 Carboxylate	A mild surfactant with good cleansing properties. It also acts as a foam booster	No
ANTI MICROBIAL		
Glyceryl Caprylate	An antimicrobial booster which also acts as a co emulsifier. It work against gram positive, gram negative, yeast and mould.	YES
Glyceryl Undecylenate	Emollient that possesses anti-bacterial properties Liquid	YES
Glyceryl Laurate	An antimicrobial booster which is suitable to use against gram positive and gram-negative bacteria. It has a refatening property.	YES
Propylene Glycol Caprylate	A natural antibacterial accelerator that is also a good emollient and has moisturizing properties.	YES
Glyceryl Caprylate (and) Glyceryl Undecylenate (and) Caprylyl Glycol	A natural self-preserving antimicrobial agent that exhibits skin conditioning properties. Ideal for a preservative free' claim formulations.	YES
Citrus Limon Extract, Cinnamomum Cassia Bark Extract, Glycine Max (Soybean) Seed Extract, Butylene Glycol	This fully natural anti-microbial complex has a broad antimicrobial spectrum and has a good inhibitory effect on bacteria and fungi. The pure product is relatively mild, has no obvious irritation on skin contact, is non-toxic and non-sensitizing to the body, and has stress irritation to the eyes under normal use concentration. It is suitable for washing surface-active systems, and it works best when used in formulations with a pH level between 4.5 and 5.5.	YES
Gardenia Florida Fruit Extract, Rubus Fruticosus (Blackberry) Fruit Extract, Citrus Paradisi (Grapefruit) Fruit Extract, Salix Alba (Willow) Bark Extract, Butylene Glycol, Water	This partially natural anti-microbial complex has a broad antimicrobial spectrum and has a good inhibitory effect on bacteria and fungi. The pure product is relatively mild, has no obvious irritation on skin contact, is non-toxic and non-sensitizing to the body, and has stress irritation to the eyes under normal use concentration. It can achieve an ideal antimicrobial effect in a variety of skin care products, with a broad pH level between 4 & 8.	YES
Phenoxyethanol (and) Ethylhexylglycerin	This product is designed for lower carbon emission trend different from other supplier, our Ethylhexylglycerin is produced using enzymatic technology where less heating and energy consumption. It can be used in water reagent, W/O, O/W emulsion systems. Applicable pH: 4-10.	NO
ANTI-DANDRUFF		
Selenium Disulphide	A liquid-based Selenium Disulphide dispersion which can be incorporated into the formulation more quickly and conveniently. It has strong stability and proven effectiveness.	NO

Explore The Power of Minerals In Your Cosmetic Formulations

We at 20 Microns, craft an extensive selection of innovative and high performance minerals which are natural, pure, chemically inert and offer good skin tolerance.

We are pleased to inform you that you can now access 20 Microns Ltd's diverse range of high performance powerful minerals directly from your trusted distribution partner, SSV VERSACHEM.

SSV VERSACHEM offers you the complete range of 20 Microns Ltd's broad portfolio of mineral ingredients for the Personal Care, Oral Care, Health Care and Cleaning industries, enabling us to help customers a complete solution to their formulation along with the actives and differentiate their product claims.

20 Microns Ltd's product range consists of:

- White Titanium Dioxide - Opacifier
- Buff Coloured Titanium Dioxide
- Fuller's Earth - Treatment Clay
- Kaolin - Hydrous & Calcined
- Bentonite Thickening Agent (Aqueous)
- Mica - Illuminating Agent
- Fumed Silica - Rheology Modifier, Mattifying Agent
- Organoclay - Thickening Agent (Oil)
- Talc - Absorbent
- Calcium Carbonate - Absorbent & Opacifier
- White Pigment Opacifier - Partial Replacement of TiO₂
- Diatomaceous Earth - Anti Caking Agent

We are confident that this partnership will provide our customers with an outstanding quality and exceptional customer service, achieving strong supply chains by offering 20 Microns Ltd. products and solutions for Colour Cosmetics, Skin Care, Oral Care, Health Care and Home Care industries.
